Title second category

Lets see if the citation works in this part [1]. The second paper I use should appear in the bibliograph now [2] and the third one as well [3].

You can cite **Tan11**. Urls look like this:

`http://www.google.com/`.

# Emphasize

This sentence includes `\emph{emphasized}`  
and `\alert{alerted}` words.

becomes:

This sentence includes **emphasized** and **alerted** words.
