Code

```
#include <stdio.h>

int main(void)
{
    (void) printf("Hello, C World\n");

    return 0;
}
```

Note: Don't forget to mark the frames using listings with [fragile].

Footnotes

You can also place footnotes, e.g., here ¹ and here ².

¹This is a footnote.

²This is a longer footnote going over two lines. So I've added some more blah blah. Lorem ipsum whatever.

References

You can add references like in a LaTeX article.
